

Meet Penelope

In the human services world managing client files hasn't always been easy. If you find yourself overwhelmed with paper, spending countless hours retrieving client information, or struggling to pull reports from a bunch of unconnected systems, Athena Software's Penelope is here to help.

Penelope is a simple, smart and connected web-based case management software solution, designed for multi-service health and social service agencies just like yours. Simple because Penelope is an easy to use, state of the art platform whose flexible configuration and secure cloud hosting means you save big on costly customization and IT expenses. Smart because Penelope is a fully integrated system that ties together the clinical, administrative, billing and reporting operations while allowing you to track client outcomes securely and easily. Connected because Penelope is fully mobile and our innovative collaboration tools mean your staff can stay connected with each other and engage directly with clients, whether inside the office or in the field.

So, say goodbye to paper files and clunky, out of date systems. And get ready to transform your organization with Penelope.

Athena Software's Penelope: **Simple, Smart, Connected.**
