

are you NDIS ready?

Penelope Case Management offers a smart way of handling your organization's NDIS requirements, powerfully integrating all aspects of NDIS service tracking and reporting within a robust case management, client communications, automated workflow and collaboration framework.

Penelope already features the structures for effectively managing:

- ✓ referrals, waitlisting and service planning
- ✓ authorized service agreements providing limits, covered services/ rates and terms
- ✓ the ability to track service delivery naturally and efficiently within Penelope system and to monitor/ report on "draw-down" against the available amounts in real time - by client, by agreement and across your enterprise
- ✓ self-managed funding packages (and monitoring of utilisation)
- ✓ client engagement tools such as direct automatic emailed smart forms and two way communications
- ✓ NDIS XML bulk upload.

Penelope empowers your organization to handle NDIS requirements in stride - inline with the rest of your service delivery practices for efficient and consistent service, administration and reporting.
